Activity 5 · Segments and Customer Value · Prompts

TGS-2022017520 · v14.0 · Synthetic training data

Prompt1

Analyse synthetic segments.csv. Calculate customers and contribution margin per customer. Create evidence-constrained persona hypotheses using only observed fields. Do not invent age, gender or income. Label retention assumptions and propose validation questions.

Prompt2

Challenge the previous result. Find denominator errors,unsupported claims,bias,privacy risks and unexecuted tool boundaries. Cite exact row IDs or fields. Revise the report without inventing data.

Scope

Read only this activity’s working copy;write outputs only. No external sends,live account changes or publication.
